## Integrated degree Program under Community College Scheme

### Where do I stand? Career Struck for degree

- 1. I'm an UnderGraduate with more than a year experience?
- 2. My education background is **ITI, Polytechnic** and I work in different industry now. I don't want to be a B.Tech graduate.
- 3. I'm a under graduate and did a professional Course (certification, Diploma or Advance Diploma in Paramedical, Retail, BPO, IT, Sales and Marketing, HRM, Digital Marketing) but my career is struck because
  - 1. My institution isn't UGC recognized
  - 2. I don't have a degree

### Where do I want to go?

- 1. Govt. job
- 2. Work in any country
- 3. Further education
- 4. Career Transformation

### Your inhibitions

- 1. Another three years?
- 2. Learn things which aren't useful for me
- 3. Exams are scary

## EARN your Degree, with Abdul Kalam Community College in your terms and conditions

A degree in India is a three-year program.

Under UGC's Community College Scheme & National Skills Qualification Framework (NSQF), Ministry of Skill Development & Entrepreneurship, Govt. of India with the motto of integrating skill into degree has divided into four levels.

NSQF level 4 – 6 months or certification level

NSQF level 5 – 1 year or Diploma

NSQF level 6 – 2 year or Advance Diploma

NSQF level 7 – 3 years or Degree

You complete can complete NSQF level 4,5,6 (first and second year) with Abdul Kalam Community College and level 7 (BA, B.Com, B.Sc., BVOC) from our Partner University.

Why should you attend this program?

You can earn your degree **FASTER** under community college scheme

1. Recognition of prior learning, (Under CC Scheme your **experience** or any previous **certifications, diploma** can get you a waive off of 6 months and more/NSQF Level 4 and above)
2. On demand examination system and
3. Under the CC Scheme, **instead of calendar year time line, acquisition of skill** is taken into account

\*Learn **DOMAIN** specific knowledge or what matters to you, on job.

\*By the end of the program you earn will earn your Degree, highly sought after 3 certifications and Associate Program.

**No regular degree college or University can directly implement this scheme except through a community college.**

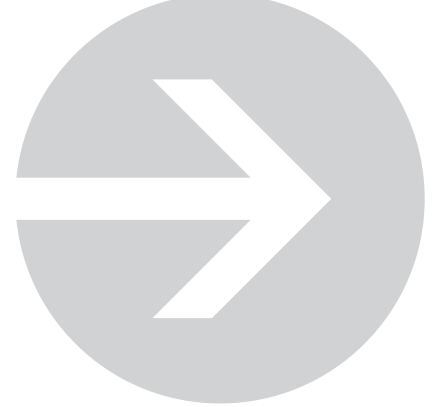

Who should attend this program?

Eligibility for admission will be 12th pass, ITI, Polytechnic diploma or any Certification, Diploma (commensurate to NSQF level, standard or extant guidelines of UGC for Community Colleges) with more than one year of experience, looking forward earn UGC approved degree (BA, B.Com, B.Sc., BVOC).

Fee's INR 70,000/-

Admission open for **2019/2020** sessions

\*Fee can be paid as cheque / draft / online transfer only in the name of Immanuel Institute of Social Sciences Trust, Indiranagar Branch  
ICICI Bank - 016905010391,  
IFSC Code - ICIC0000169

Academic Equivalence

National Skill Qualifications Framework (NSQF) has defined 10 levels of competency. Some School Boards are providing Level-4 certificate which is being considered as equivalent to Class-XII. UGC has written to all universities that students coming out with Level-4 certificates in Vocational Education should be given equal weightage and considered for admission into degree courses. UGC has laid down Diploma, Advance Diploma and B.Voc. Degree programme under NSQF which are considered equivalent to Level-5, 6 and 7 of NSQF respectively. UGC guidelines for B.Voc. degree programme provide for the following :-

Level	Credits	Commensurate NSQF level
Diploma	60	5
Advance Diploma	120	6
B.Voc. Degree	240	7

Although academic higher education courses (such as academic degrees) are not covered in the NSQF, it may be broadly aligned with the prevailing framework for higher education qualifications, allowing levels of acquired competency to be compared with the academic degrees as suggested below :-

Level	Described level of competency as defined under NSQF	Proposed Academic Equivalence
Level -1	Be responsible, shows basic skills, performs routine tasks and follow instructions.	Refer to school level education
Level -2	Be responsible, work under supervision and solve simple problems.	Refer to school level education
Level -3	Responsible for own work, demonstrate skills, responsible for own work and solve simple problems.	Refer to school level education
Level -4	Responsible for own work, demonstrate skills, responsible for other's work and solve simple problems.	Refer to school level education
Level -5	Responsible for own work, demonstrate skills, responsible for other's work and solve simple problems.	Diploma
Level -6	Responsible for own work, demonstrate skills, responsible for other's work and solve simple problems.	Advance Diploma
Level -7	Be responsible for entire job or project/assignment.	Diploma
Level -8	Self-management and decision making in context of work, track history, responsible for development of skill/craft.	Refer to Under Graduate level
Level -9	Responsible for entire project/assignment, demonstrate skills, responsible for other's work and solve simple problems.	Bachelors
Level -10	Responsible for entire project/assignment, demonstrate skills, responsible for other's work and solve simple problems.	Doctorate

The UGC guidelines for Curricular Aspects, Assessment Criteria and Credit System for Skill based Vocational Courses have defined credits for specific NSQF level as above which may utilize as a tool for equivalence to the academic qualifications at par with equal number of credits awarded by any institutions in related specializations.

ugc.ac.in

- 4.9. The institutions may also provide for Recognition of Prior Learning (RPL) framework for job roles at NSQF Level 4 onwards by conducting assessment and certification through respective SSC(s) / Directorate General of Employment and Training (DGET).
- 4.10. Relevance of programmes offered, along with that of the curriculum is important. Therefore, monitoring, evaluation and updating of the curriculum needs to be done periodically in consultation with all stake holders, particularly the industries and SSCs keeping in view their requirements and changes in NOSs. The approved institutions under the scheme shall incorporate this as a continuous and dynamic process, in-built in their system.
- 4.11. The institutions may like to appropriately use technology to improve the effectiveness of the delivery of courses.
- 4.12. The teaching / trainings under the scheme leading to Certificate/ Diploma / B.Voc degree or Masters programme are full time degree courses. These should not be conducted as an add-on programme.
- 4.13. As an illustration, awards shall be given at each stage as per Table 2 below for cumulative credits awarded to the learners in skill based vocational courses

NSQF Level	Skill Component Credits	General Education Credits	Total Credits for Award	Normal Duration	Exit Points / Awards
7	108	72	180	Six Semester	B.Voc Degree
6	72	48	120	Four semesters	Advanced Diploma
5	36	24	60	Two semesters	Diploma
4	18	12	30	One semester	Certificate

The NSQF Levels in above illustrations indicate that there should be at least one job role at the concerned NSQF Level in the curriculum to be assessed and certified for skill component. The normal training hours for skilling should be proportionate to the weightage for skill credits and an appropriate component of skill training may be imparted as on-site training at actual work place.

4.14 While formulating the curriculum under the scheme, institutions will ensure to follow choice based credit system and will provide provisions for credit transfer across the courses. The credit distribution should be rationally provided for the practical work, apprenticeships, on-job training and project work.

4.15 As the CBSE and many other school boards are initiating skill based vocational courses with certification at NSQF Level 4 for

# IT

## Certification level

### Certified Digital Marketing Associate Program

CDMAP course will prepare you with the essential disciplines in digital marketing, including SEO, Social media, PPC, Conversion optimization, content marketing, email and mobile marketing for starting a career in digital marketing.

### Certified Front end Website Developer Program

CFEWD is designed to equip learners with the skills to create high quality website to create stunning user experience using CSS, Flexbox, CSS Grid, Java Script and HTML.

## Diploma level

### Certified App Developer program

Start your career as Android Developer. Learn best practices, simulation through real time app development and publish your own App on Google Play.

### Diploma in Digital Marketing

DDM is designed to transform your for the next level. You will get hands on exposure to modern CRM and Sales intelligence tools and learn how to improve social media engagement, generate better equality prospects, drive faster conversions impacting the bottom line of your organization.

## Professional or Advance Diploma level

### Digital Market Professional Program

DMPP is designed to fast track your career. You will master the nuances of PPC, web analytics, design campaign, conversion optimization, driving traffic, keyword management and research and SEO Analytics.

# BPM/ ITES

## Certification level

### Certified Business Process Management Associate Program

CBPMA program is designed to enable you for starting your career in ITES industry. You will learn communication skill, basic computer skill and as per your interest level, the program is personalized to get you placed across BFSI, Telecom, Tech support, Travel and Tourism, event management, In bound and Out bound domain.

## Diploma level

### Diploma in Sales and Marketing

DPSM program will transform you to a high performance sales and Marketing professional. You will learn lead generation, sales and distribution management, assertive therapy, negotiation skill, market research, consumer psychology & NLP in sales.

(Diploma and Advance Diploma)  
 1st Year  
 Introduction to Sociology  
 History of Ancient India  
 2nd Year  
 Social Problem and Social Welfare  
 Local Self-Govt. in India

**What is community college?**

A Community College is a higher education institution that provides workforce education and credit transfer to UGC approved University's academic programs. Under Community College scheme you earn sought after certifications, diploma, advance diploma and a subsequent degree in BA, B.Com, BSc and BVOC.

Abdul Kalam Community College was incepted with following objectives in adherence to the UGC Guidelines and scheme for Community Colleges in India

1. To make higher education relevant to the learner and community
2. To integrate relevant skills in the higher education system
3. To provide up gradation & Certification to the learner irrespective of their age
4. To provide opportunity to vertical mobility to higher education in future.
5. To offer bridge courses to certificate holder's of general and vocational education and bring them at par with NSQF level.

**How is community college different from regular college?**

A regular degree college is the luxury for those whose situational compulsion makes them take up early employment. A traditional degree college or University in India is rigid in terms of duration of the courses, timing of teaching learning, choice of subjects and irrelevant curriculum whereas in a Community College you can transfer your prior experiential learning, formal or informal learning into credits (save on your degree tenure), flexible and relevant to industry to individuals and you earn sought after certifications, diploma, advance diploma and a subsequent degree in BA, B.Com, BSc and BVOC.

**How is community college different from distance learning Universities?**

Though legally the value degree earned from a Distance Learning University and a regular university is same however as per the market reality only 40% of graduates are employable however with Community College students have hands on learning, learning which is relevant to jobs and career progression. So for obvious reasons, someone earning their degree through Abdul Kalam community college is preferred by employers.

**Will I be eligible for Govt. Jobs?**

Since you are graduating from a UGC approved University, you are definitely eligible for any Govt. jobs.

**What Courses can I graduate in?**

You can graduate in BA, B Com, and B Sc. & BVOC.

**Are students from NSDC or PMKVY eligible for RPL?**

Yes, NSQF level 4 onwards.

**Does Community College provide fast track program?**

No

**How soon can I graduate?**

The certificates, diploma, advance diploma are awarded based on the acquisition of credits and not on calendar year (In accordance with the compliance of Statutory scheme and guidelines for Community Colleges) Our programs combines learning rigor with the ease of setting the pace of your learning.

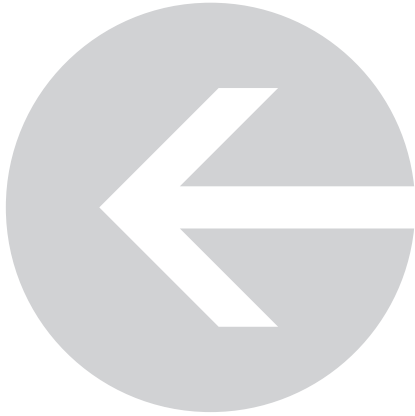

**I have completed earned certification from 'xyz' institution, am I eligible for RPL?**

Yes however we will definitely consider your prior learning in accordance with NSQF level.

**Isn't the fee is high?**

A simple certification course in Digital Marketing from a renowned institution in India costs minimum INR 30,000 to 70,000 however we are offering certification with degree at INR 70,000/- with placement.

## Earn while you learn

### Where do you stand?

You got less than 50% in your PUC and want to be software engineer?

### Where do you go?

By that you graduate

1. You will be 2.6 years experienced
2. You would have earned INR 250,000/-
3. You would have self financed your study.

### BVOC in Software Development

Who should attend this program?

1. You aspire to work as IT Professional, software developer but cant afford.
2. Your percentage in 12th isn't eligible for admission to computer science degree.
3. ITI pass out can join degree directly and polytechnic pass out can get lateral entry.

Fee's 150,000/-

Admission open for **2019/2020** sessions
